Economics (/ ɛˈkɒnəmɪks, ɪˈkɒnəm-/ ) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Along with what to buy, another key decision that we make every day as economic agents is how much to work and how much to relax. The decision about supplying labor can be analyzed with the same tools used to analyze the market for pizza or movies, and we call this the analysis of the labor market.
