Magic Items and Detect Magic. When detect magic identifies a magic itemâ€™s school of magic, this information refers to the school of the spell placed within the potion, scroll, or wand, or the prerequisite given for the item. The description of each item provides its aura strength and the school to which it belongs. If more than one spell is given as a prerequisite, use the highest-level spell.

The study of magic in the Greco-Roman world is a branch of the disciplines of classics, ancient history and religious studies. In classical antiquity, including the Hellenistic world of ancient Greece and ancient Rome, historians and archaeologists view the public and private rituals associated with religion as part of everyday life. Examples of this phenomenon are found in the various state ...
