

dogs vol 1 pdf

The domestic dog (*Canis lupus familiaris* when considered a subspecies of the wolf or *Canis familiaris* when considered a distinct species) is a member of the genus *Canis* (canines), which forms part of the wolf-like canids, and is the most widely abundant terrestrial carnivore. The dog and the extant gray wolf are sister taxa as modern wolves are not closely related to the wolves that were first ...

Introduction. The assessment and management of chronic pain and quality of life (QOL) in dogs are key aspects of clinical veterinary practice. Development and refinement of tools for such assessments is an active area of research in both animal welfare science and veterinary medicine, and publications span a wide range of journals.
