Let's get straight to the point: No country gets close to a perfect score in the Corruption Perceptions Index 2016. Over two-thirds of the 176 countries and territories in this year's index fall below the midpoint of our scale of 0 (highly corrupt) to 100 (very clean). The global average score is a ...

Perception (from the Latin perceptio) is the organization, identification, and interpretation of sensory information in order to represent and understand the presented information, or the environment.. All perception involves signals that go through the nervous system, which in turn result from physical or chemical stimulation of the sensory system. For example, vision involves light striking ...

Women's Health Issues (WHI) is the official publication of the Jacobs Institute of Women's Health, and the only journal devoted exclusively to women's health issues at the medical/social interface. The journal has a particular focus on women's issues in the context of the U.S. health care delivery system and policymaking processes, although it invites submissions addressing women's health care ...

Adverse Childhood Experiences and the Lifelong

Children who have suffered early abuse or neglect may later present with significant behavior problems including emotional instability, depression, and a tendency to be aggressive or violent with others. Troublesome behaviors may persist long after the abusive or neglectful environment has changed or the child has been in foster care placement.

Understanding the Behavioral and Emotional Consequences of

CAPS Page 4 Criterion B. The traumatic event is persistently reexperienced in one (or more) of the following ways: 1. (B-1) recurrent and intrusive distressing recollections of the event, including images, thoughts, or perceptions. Note: In young children, repetitive play may occur in which themes or aspects of the trauma are expressed.
