• The highest level in a hierarchy of leadership capabilities
• Leaders at the other four levels in the hierarchy can produce high levels of success but not enough to elevate organizations from mediocrity to sustained excellence
• Good-to-great transformations don't happen without Level 5 leadership
• Level 5 is not the only requirement for transforming a good

The Inputs of a process are the things that are transformed by the process in to the end product or service required by the customer of the process. Inputs can be tangible, e.g, written data, or intangible, e.g, verbal requests. The Outputs of a process can be products or services and should conform to the specifications agreed in advance with the recipient, i.e, with the customer, internal ...

Process Understanding & Improvement

An invention is a unique or novel device, method, composition or process. The invention process is a process within an overall engineering and product development process. It may be an improvement upon a machine or product or a new process for creating an object or a result.
